

Update Bulletin – August 2023

New Features

- The confirm booking wording has changed to the below:

- Tickets have to be in the completed status before they can be archived.
- Supplier's Invoice number can now be captured on the GRV.

GOODS RECEIVED

Estimated delivery date: Not specified

<input type="checkbox"/>	Item Name	Amount Delivered	Total Goods Received	Total Outstanding
<input checked="" type="checkbox"/>	SIM Card	<input type="text" value="1"/>	0.00	1.00

Supplier Invoice Number:

- New role has been added so that Technicians cannot create follow up jobs. Please send an email to support@briskflow.co.za to have the role assigned to the technicians.
- A new report is available to see which user is linked to which sites

Platform Fixes

1. The Audit Files' Default User menu has been changed to be alphabetically listed.
2. The Suppliers list on the Items page is now arranged alphabetically.
3. The copying of a quote no longer includes the document details, like PO Number, Reference etc, but will still retain line items, costing and descriptions.
4. A clear filter option has been incorporated onto the Asset Register page.
5. Audit trail Implemented on
 - a. Job Question changed
 - b. Item prices changes.
